MEMORANDUM FOR: Chief, Military-Economics Division, ORR

THROUGH: Chief, Requirements Branch, Reconnaissance Group, CGS

25X1A ATTENTION: [REDACTED]

FROM: Chief, CIA/PID (NPIC)

SUBJECT: Search of Tula Area, USSR, for Guided Missile Facility

REFERENCE: (a) Requirement C-RR-3-80,599
(b) CIA/PID Project C 1324-63

25X1A 1. This memorandum is in response to your requirement dated 20 September 1963 requesting an examination of the Tula area, USSR, to determine the presence of a missile related facility as reported in CS-3/439/048. A verbal answer to this requirement was submitted 23 September 1963 by [REDACTED]

25X1D 2. A thorough search of the Tula area on KEYHOLE Missions [REDACTED] could neither confirm nor negate the presence of the guided missile facility reported in CS-3/439/048. The small scale of the photography and apparent discrepancies in the orientation of the sources sketches and description of the facility precluded an exact determination of its location. It is possible, however, that the source may have been referring to the Tula Armament and Agricultural Machinery Plant, "Novaya Tula 187," located approximately five kilometers northeast of the center of Tula.

25X1A 3. The photo analyst on this project is [REDACTED] and he may be contacted on extension 2705 should you have any further questions concerning this requirement.

4. This project is considered to be complete.
